OBJECTIVE

Web Developer with more than 2+ years of experience in front-end and back-end technologies, seeking full-time developer roles

EDUCATION

Intermediate in Computer Science

Bachelor of Computer Science, University Of Gujarat

2022 - 2026

SKILLS

Technical skills HTML, CSS, JS, React JS, Next JS, Angular Js, Mongo DB, Express JS, Node JS

Communication Teamwork and Collaboration, Problem solving and Critical Thinking, Adaptability

EXPERIENCE

Front End Web Developer

Jan 2023 - Apr 2025

Fiverr *Pakistan, Jhelum*

- Achieved 95% growth website performance using React.js and performance optimization techniques.
- Led a team of 3 developers to build a custom CMS, leading to 40% improvement in page load speed and 25% increase in user engagement.
- Developed a weather app that displayed current temperature, weather conditions, and city search using JavaScript, API calls, and basic DOM manipulation.

PROJECTS

Nike Clone I created a Nike website clone using HTML, CSS, and JavaScript, replicating the design, layout, and animations of the original landing page. The project includes product sections, hover interactions, and is fully responsive.

Hotel Booking Website In addition, I developed a hotel booking website using ReactJS and Tailwind CSS, which features listing pages, booking sections, and hotel detail views. The site is mobile-friendly and uses React state to dynamically filter content based on user input. award.

LEADERSHIP

- As a web developer, I demonstrate leadership through proactive problem-solving, ownership of projects, and effective collaboration with team members. I take initiative in planning project structure, selecting appropriate tools and technologies, and ensuring code quality through clean, maintainable practices. Whether working independently or in a group, I lead by example—communicating clearly, helping others debug issues, and contributing to a positive and productive development environment. I'm also eager to mentor and share knowledge as I grow in my career.
